

Here are all the benefits of the "dog folding bed"

- ✓ Dry, clean, practical, hygienic, mobile and at a reasonable price.
- ✓ At home, while traveling or during camping: The folding, portable dog bed is space saving and easy to store.
- ✓ Quick and easy to set up: Your pet will always know where his own bed is.
- ✓ Observing from this higher position pleases the instinct of the dog.
- ✓ Cool during warm seasons due to air circulation underneath the bed.
- ✓ Warm in cold seasons. Your pet's health is protected by not laying on a cold or damp surface, which prevents kidney or bladder infections as well as hip problems.

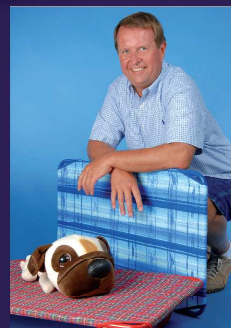

BREEDER'S OPINION:

"Your shop convinced me with your extraordinary customer service and very friendly advises. I recommend this dog bed for all seasons. In summer time the dogs lay down cooler and in the winter the cold can not harm them. Also my bunch of dogs enjoy their upper observing spot a lot!"

Sincerely Yours Silvia Barke

Different samples are available.
Custom made frames and covers are available
for larger/heavier pets.

„This particular sleeping area should be picked out very carefully. The dog should be able to observe and feel comfortable without feeling displaced.

On his bed the dog should be able to stretch out in full length.

More convenient is a „dog folding bed“ – it has been tested for years – in the right size and in a solid construction, it has a carbon steel frame and a washable canvas cover.

It is also perfect for vacations. It is quite clear that pillows and blankets should be washed as often as possible. The „folding dog bed“ pleases the requirements of your dog, to observe from a higher position and it also saves your upholstery from being occupied by your darling ...”

Covers can be changed and are washable
